Our commitment

Credicorp Limited is committed to making credicorp.co.uk and our customer portal usable by everyone, including people who use assistive technology, who do not use a mouse, who need larger text, or who prefer plain-English content.

Conformance

We aim to conform to the **Web Content Accessibility Guidelines (WCAG) 2.1 at Level AA**. Our team self-audits periodically against the WCAG 2.1 success criteria, and we re-test any feature that materially changes the customer journey.

What we provide

- **Simple View** — a plain-English condensed view of every public page (toggle in the page footer, or visit `/simple/<slug>/`).
- **Large-text mode** — sets the base font size to 19px and increases line-height.
- **High-contrast mode** — black-on-white flatten of every section, including dark hero banners.
- **Keyboard navigation** — every interactive element is reachable via Tab, with a visible focus ring and a Skip-to-content link.
- **Screen-reader support** — semantic landmarks, ARIA labels on icon-only buttons, live regions on AJAX responses, alt text on every meaningful image.
- **Reduced motion** — every animation respects `prefers-reduced-motion`.
- **Welsh / Scottish Gaelic / Scots** — translated marketing pages and policies for visitors who prefer them.

Known issues

We are transparent about what does not yet conform:

- The PDF versions of regulatory documents are tagged for screen readers, but the reading order on a few legacy templates is not yet optimal. We are rebuilding those templates.
- Some legacy support-article videos do not yet have closed captions.
- The Slice instalment schedule renders as a table that is not yet announced as a "data table" by every screen reader.

How to tell us about a problem

If you find an accessibility issue, please tell us. We aim to fix accessibility issues within 5 working days for high-impact problems and 30 days for everything else.
